

# IMG workshop

The smart IT solution for  
Mold sampling & series production

## Chapter 1: "THE-WARM-UP"

- What are your main objectives for mold sampling & subsequent series production?
- How does a tool sampling process or an intervention in the running series process work for you?
- What problems/challenges do you see in your current position? Procedures?
- What solutions would you like to see?

**8:00 am - 09:30 am**

Coffee break

**09:30 am - 09:45 am**

## Chapter 2: THE OPTIMUM "PROCESS FLOW IN THE COMPANY"

The holistic process from sampling to "LifeCycle" in the running series process:

- ✓ "Inspection of injection molds"
- ✓ "Troubleshooting and intervention in the running series process"

**09:45 am - 12:30 pm**

Lunch break

**12:00 pm - 12:30 pm**

## Chapter 3: LEARNING & UNDERSTANDING THE IMG PLATFORM

- Creating an internal project
- Master data
- Process engineering
- **New:** IMG in series production via "life cycle"

**12:30 pm - 2:30 pm**

Coffee break

2:30 pm - 2:45 pm

## Chapter 4: PRACTICE PART I

### Preparation of a sampling

- Proper preparation at the SGM
- Tool check before the start of initial sampling

14:45 -  
approx. 16:00

## IMG Workshop Day 2

## Chapter 5: PRACTICE PART II

### IMG training offensive:

→ Standardized, digitalized guidance through the holistic sampling process...

- Optimum basic settings
- Filling and holding pressure phase & mold clamping force
- Sampling analysis of the basic setting
- Optimization of the basic setting
- Process optimization (optional)
- Describe results and outcomes
- Required definition of measures
- Communication and documentation
- Release process in series production

08:00 am - 12:00 pm

Lunch break

12:00 pm - 12:30 pm

### -Continuation-

#### Chapter 5: Practical part II

##### IMG training offensive:

→ Standardized, digitalized guidance through the holistic sampling process...

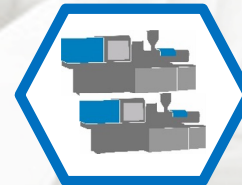

12:30 pm - 2:00 pm

##### IMG training offensive:

→ Standardized, digitalized guidance during series production

- Digital process folder
- Error catalog
- Process history
- ...

2:00 pm - 3:30 pm

#### Chapter 6: END OF THE IMG WORKSHOP

- Open questions
- Recommendations and next steps
- Conclusion of the workshop
- Pleasant professional exchange among the participants

3:30 pm -  
approx. 16:30

**End of the IMG  
workshop**
